## Bench for the assembly of gaskets

Adjustable feet 01

Anti-slip PVC contact surface 02

A correct flow of materials, whether semi-finished or finished products, or parts in the assembly phase, plays an important role in rationalizing and optimizing the production cycle. The Emmegi Logistics line offers companies a concrete solution to all storage, handling and assembly problems.
Edge is a bench for the assembly of accessories and gaskets. It allows the frame to be turned in that it rotates about its centre and can be extended lengthwise.

Work table adjustable in both height and length 03

Rotary work table 04

Bench for the assembly of gaskets

## 01
### Adjustable feet

Height-adjustable feet ensure that the work table can be set at the desired height, perfectly flush with the other products in the Dynamic Line. They also have holes for anchoring them to the floor.

## 02
### Anti-slip PVC contact surfaces

The contact surfaces are coated with anti-slip PVC rubber which ensures that the frame is supported securely when it is put into position .

## 03
### Work table adjustable in both height and length

The horizontally and vertically extendable contact surfaces enable the bench to adapt perfectly to the various styles of frames.

## 04
### Rotary work table

The work table rotates about its centre and can be extended in length, thus allowing the frame to be turned.

| TECHNICAL CHARACTERISTICS | |
|---|---|
| Rubber-coated contact surfaces | • |
| Work table adjustable in both height and length | • |
| Rotary work table with clutch | • |
| Feet with holes for anchoring to floor | • |
| Loading capacity (kg) | 60 |
