Swivelling castors 01

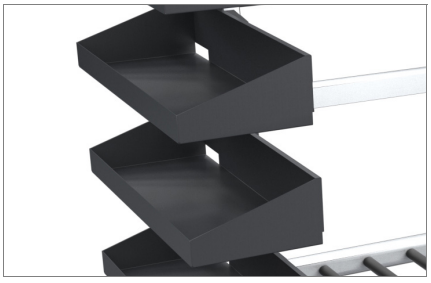

Contact surfaces 02

A correct flow of materials, whether semi-finished or finished products, or parts in the assembly phase, plays an important role in rationalizing and optimizing the production cycle. The Emmegi Logistics line offers companies a concrete solution to all storage, handling and assembly problems.
Taglio is a trolley for handling and storing profiles vertically.

Taglio

Trolley

01
Swivelling castors

The trolley has 2 fixed castors and 2 swivelling castors with brakes which ensure great mobility and easy handling. The brakes enable it to be locked in position in the various work areas.

02
Contact surfaces

All contact surfaces are coated with soft anti-slip PVC which prevents damage to them when the profiles are put in position.

03
Side containers

A set of handy containers for arranging small parts of hardware simply and tidily so that all items can be readily found.

TECHNICAL CHARACTERISTICS	
Soft anti-slip PVC contact surfaces	
Drawers for short workpieces	4
Compartment capacity (mm)	90 x 525
Push handle	
4 wearproof swivelling castors, 2 with brake (mm)	ø 125
